### Technical Facilities

The theatre houses a fully-integrated, Zero88 operated lighting system controlling a 72 circuit half fixed/half flown lighting rig. The tech box houses a 48 channel intelligent lighting desk with easy programming for shows. A state-of-the-art digital sound system offers a professional and crisp sound.

The performance area houses a 24in/4out stagebox for live sound set-ups, whilst the tech box houses 2 auto-cueing CD players and a Qlab enabled Mac for playback, as well as a 16 channel Yamaha digital mixing desk.

The tech box also controls the theatre's projection facilities. Projection in the theatre can be run in a variety of different ways, from conference-style presentation set-ups, to larger-scale theatrical displays. Projection can be run from an in-house PC or Mac, or from a laptop on stage.

A communication system is also installed to facilitate show cueing, with points located around the theatre and surrounding areas. A show relay screen is located outside the dressing rooms. An induction loop is in place for those hard of hearing.

### Hospitality

The theatre also houses our newly refurbished ambient front of house receiving area with box office desk, space to serve drinks, hot and cold running water and refrigeration. The front of house area also houses two digital screens which can be used to show welcome presentations or advertise future events.

Two dressing rooms backstage are completed by mirrored make-up tables with surrounding lights and shower and toilet facilities.

## Media Facilities

We have an array of interesting and adaptable facilities at the College which can be used by film companies or photographers. We also have the added benefit of the site being unused for education for 13 weeks during the year.

Our site has recently been used in the filming of an action sci-fi movie which was premiered at the SXSW Festival in Austin.

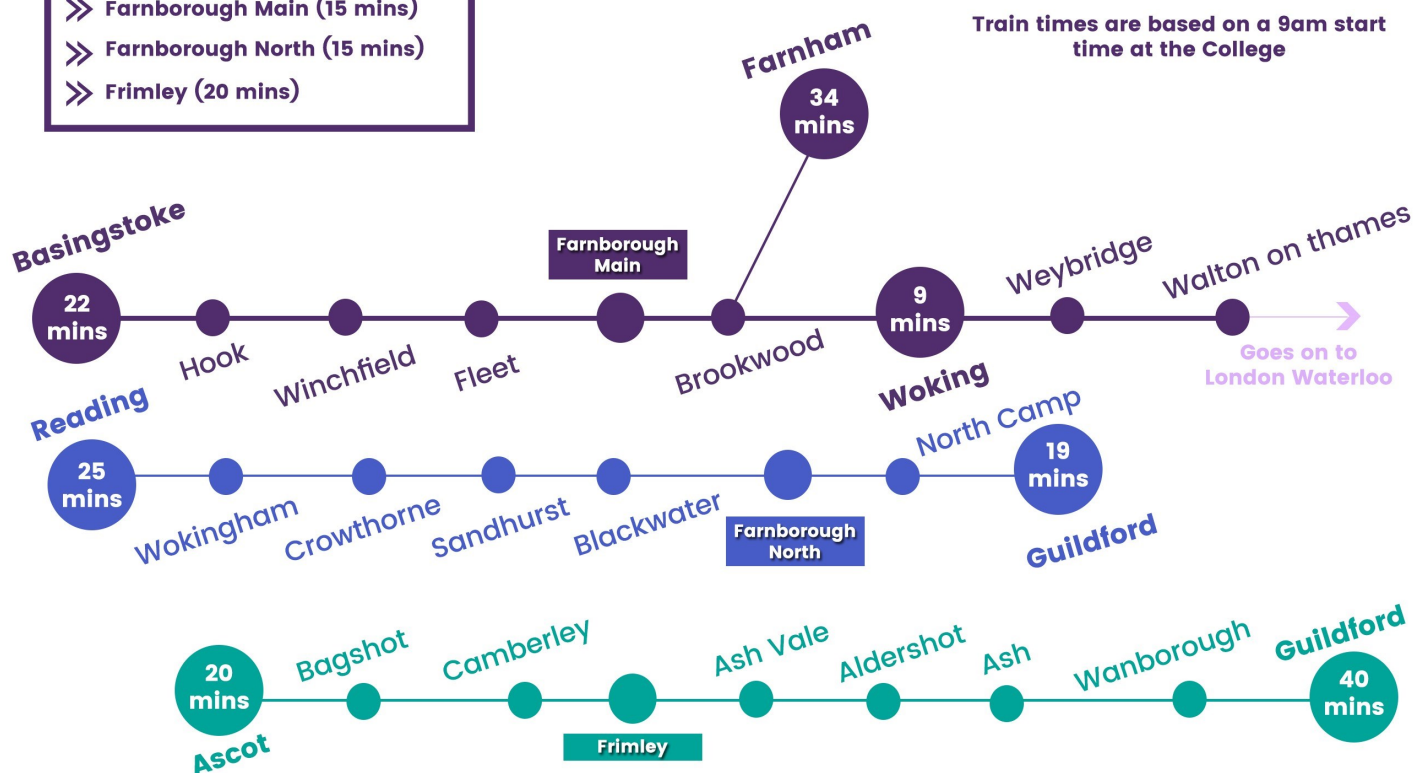

As well as the obvious use of the site as a college/school we can double up as a theatre, airport terminal, train station, university campus, housing estate, company global headquarters, gym, office block, laboratory, Doctor's surgery, recording studio...the list is endless and only limited by your own imagination!

So if you're looking for an accommodating, flexible location with rail links to London and close to the M3, look no further than The Sixth Form College Farnborough.
