

## Health and Wellbeing:

We appreciate that students will miss College and the support and structure it provides. We want you to be aware that we are still able to provide you with some support.

All students currently receiving regular face to face counselling appointments will be emailed via their College email about the support available.

We are unable to run any drop in sessions. Please [click here](#) for resources of support available to you externally.

Kirsten Halvorsen, the College's Health and Wellbeing Coordinator will be available via email to respond to any concerns or worries you may have during this time away from College. Her email address is [khalvorsen@farnborough.ac.uk](mailto:khalvorsen@farnborough.ac.uk).
